Bangor	bangor@boatfolk.co.uk	Open for overnight visitors.

Note 1 Oban Marina (Kerrera): - We have a regularly updated document on the website that itemises the services available in this marina. It is quite conservative at the moment but we expect to be able to offer more things as time goes on. Although there are a few logistical issues here, being on an island, we are looking forward to being open. We have lowered our overnight rates to £15 for a mooring ball and £25 for pontoons (regardless of length). We also intend to have fresh stone-baked Pizza delivered to the boats, BBQ nights and outdoor beer wine and spirits as soon as we are able to do so.

Further Notes:

Millport visitor moorings have been lifted – markers only where the buoys were as of last week. Anyone any status?

Scottish Canals

Boating on the canal

During Phase One we welcomed back leisure boaters, who live within five miles of their mooring, and residential boaters to use the canals for local boating. However, there are still numerous restrictions in place, including no operation of locks and bridges, limited services and limited staff available on the ground. This remains the position during Phase Two.

However, we are pleased to let you know that Scottish Canals is planning to reopen the canals to navigation in line with the announcement that Scotland's tourism sector is preparing to reopen during Phase Three of the Scottish Government route map on 15th July 2020. Subject to the confirmation of Phase Three from that date, the canals will open to navigation as follows:

- Crinan Canal – 17th July 2020
- Caledonian Canal – 22nd July 2020
- Lowland Canals – 22nd July 2020

While boats will be able to transit the canals, the operating hours and days still have to be confirmed. This information will be shared with you as soon as we are able.

Navigation licence fee extension

When the canals were closed to navigation at the beginning of lockdown, we decided that all mooring customers would receive three months' navigation licence free of charge to cover the period from April to June 2020. We have decided to extend the concession to cover July 2020 with all mooring customer getting a credit note issued to their account next month in addition to April, May and June.

Please contact Scottish Canals via our [Coronavirus Hub](#) if you are having difficulty keeping up with your payments.

Boat Safety Certificate Deferment

When we last wrote to you, we informed you that the deadline of the Boat Safety Certificate was being extended to 31st July 2020. However, we recognise that it may not be possible to arrange an inspection within this timeframe and therefore, we are extending this period once more, until September 2020.

Our moorings team will be working alongside customers and boat safety examiners to prioritise vessels and ensure all inspections are carried out safely and in a timely manner
